REFERENCES

Available upon request.

I wish to make the world a healthy place for humanity with education and technology. Trained in medicine and public health, I am a teacher with 5 years of experience. I am a lifelong learner with love for working interdependently with a diverse group of people with different sets of talents, who also want to make the world a better place.

I am fluent in speaking Nepali and English while I am conversant in Chinese, Dutch and Hindustani.

WORK EXPERIENCE

ACE of Brussels

Intern, April - May 2022

- I was responsible for observing and assisting teachers, as well as supporting and teaching students in IGCSE science and mathematics in Year 5, 6, 7, 8, 9 & 10 classes.

Online tutor (Weekly), March 2022 to Present

- I design and teach the basics of web development online to the young students aged 10-12 years old from ACE of Brussels school.

Health Connection

Co-founder & Connector-in-Chief, 2015 to Present

- Identifying the language and cultural barriers between the healthcare professionals and migrant ethnic minority communities along with the lack of health literacy in the migrant population in Hong Kong, I co-founded this social health organization.

- I work to connect different healthcare and social organizations and ethnic minority communities to organise health promotion events to promote intercultural health awareness and exchange programmes.

- In the last 3 years, I have been supervising Hong Kong University Master of Public Health students online.

CMA Choi Cheung Kok (CMACCK) Secondary School

Teacher, 2011 - 2016

- I was a teacher of Integrated Science and Mathematics for junior secondary (Year 8 & 9 / Grade 7 & 8) students, and a teacher of Health Management and Social Care for the senior secondary (Year 11,12 & 13 / Grade 10, 11 & 12) students.

Hong Kong Translingual Services (HKTS)

Trainer, 2010 - 2016

- Every year, I was responsible for training 25 - 30 adults on the basics of medical interpretation and translation programmes. I was also appointed for designing the lessons based on healthcare settings, health communication, medical terminologies and procedures

Yuen Long Long Ping Estate Tung Koon Primary School

Teaching Assistant, 2010 - 2011

- My main duty was to help teachers and students during as well as after-school hours regarding learning and disciplinary challenges. In addition, I helped to liaise teachers with the parents and promote the school in the non-Chinese communities.

CUHK Nethersole School of Nursing

Research Assistant (Part-Time), March-August 2014

- Since there were not enough awareness and research on breast cancer and cervical cancer for South Asian women in Hong Kong, I worked with other researchers and healthcare providers to prepare the training guide for community health workers on health promotion and education in 3 different languages - Nepali, Hindi and Urdu.
